

Saša Potežica

Work Experience

Freelance Web Developer

Self Employed - Remote | October 2017 - June 2020

- Collaborated with clients to create visually appealing, user-friendly websites tailored to their brand identities.
- Used HTML5, CSS3, and JavaScript to craft custom, responsive designs meeting modern web standards.
- Employed frameworks like React, Angular, and Vue.js for dynamic, interactive components, ensuring smooth navigation.
- Optimized code structures for improved website speed and user experience.
- Integrated third-party APIs and plugins to extend website functionality and enhance user interactions.
- Advised clients on best practices in UI/UX design, ensuring intuitive navigation and accessibility compliance

Junior Front End Developer

TokenFlow - Remote | June 2020- Present

- Revamped UI and introduced intuitive React components, leading to a visually appealing trading interface and increased user engagement.
- Optimised React components and data fetching processes, resulting in reduced load times and enhanced responsiveness across devices and browsers.
- Integrated real-time analytics dashboards and customisable trading interfaces to attract and retain users, driving growth in user base and revenue.
- Facilitated effortless access to additional features and data sources, expanding platform capabilities and enhancing user experience.
- Utilised innovative React features to establish TokenFlow as a frontrunner in decentralised finance, staying ahead of industry trends and setting ourselves apart from competitors.

Skills

Programming Languages: HTML, CSS, JavaScript (ES2020+), TypeScript, PHP, MongoDB, C#, MySQL, PostgreSQL

Libraries & Frameworks: React, Node.js, Next.js, Tailwind CSS, Styled Components, Framer Motion, Express.js

Tools & Platforms: Git, Github, Netlify, Heroku, WordPress, Firebase, Figma

Strengths

- **Adaptability:** Flexibility to learn and work with new technologies, frameworks, and tools as the project demands evolve.
- **Attention to Detail:** Meticulous approach to coding and design, ensuring high-quality and pixel- perfect user interfaces.

Education

**Higher Educational Technical School of Professional Studies
Information Technology**

2022 - Present

Gymnasium "Žarko Zrenjanin" Vrbas
