Saša Potežica

Work Experience

Freelance Developer
Self Employed - Remote | June 2022 - Present

- Collaborated closely with business owners to conceptualize and execute visually stunning and user-friendly websites tailored to their specific needs and brand identities.
- Utilized HTML5, CSS3, and JavaScript to create custom, responsive designs that enhance user engagement and meet modern web standards. Leveraged frameworks such as React, Angular, and Vue.js to develop dynamic and interactive website components, ensuring seamless navigation and functionality.
- Implemented efficient code structures and optimized web performance to enhance site speed and user experience.
- Integrated third-party APIs and plugins to extend website functionality and enhance user interactions.
- Advised clients on best practices in UI/UX design, ensuring intuitive navigation and accessibility compliance

Projects

CryptoBase
https://github.com/sasa-potezica/crypto-project
https://sp-cryptobase-exchange.netlify.app

Crypto Currency Exchange Platform Development

- Created responsive front-end interfaces using React and Tailwind, ensuring seamless user experiences across desktop and mobile devices
- Integrated real-time market data feeds and trading APIs to provide users with up-to-date cryptocurrency prices and liquidity.
- Conducted thorough testing and debugging to identify and resolve issues, ensuring the platform's stability, reliability, and adherence to industry standards.

Skills

Programming Languages: HTML, CSS, JavaScript (ES2020+), TypeScript, PHP, MongoDB, C#, mySQL, PostgreSQL

Libraries & Frameworks: React, Node.js, Next.js, Tailwind CSS, Styled Components, Framer Motion, Express.js

Tools & Platforms: Git, Github, Netlify, Heroku, WordPress, Firebase, Figma

Strengths

- **Adaptability:** Flexibility to learn and work with new technologies, frameworks, and tools as the project demands evolve.
- **Attention to Detail:** Meticulous approach to coding and design, ensuring high-quality and pixel- perfect user interfaces.

Languages

- **English**: Native
- **Serbian**: Native
- **Russian:** Begginer

Education

Higher Educational Technical School of Professional Studies
Information Technology
2022 - Present

Gymnasium "Žarko Zrenjanin" Vrbas
